

## Returning Kindle eBooks Early

You do not have to return items before they are due. eBooks are never “overdue” and return themselves automatically when they expire. If you want to return an item early, here’s how:

To return library items you must be logged into your Amazon account on a computer or tablet (including Kindle Fire).

1. Visit [www.amazon.com](http://www.amazon.com).
2. Sign in using your email address and password, associated with your Kindle.
3. Click **Manage Your Content and Devices**.
4. Under Your Kindle Library you will see items which say **Borrowed** next to the title.
5. To the left of these titles you will see a small box with 3 little dots under the column titled Actions. Click on this box.

6. A box will appear, click **Return this book**.
7. A message will appear asking: “Are you sure you want to return this Library Loan Ebook?”
8. Click **Yes**, the eBook will be removed from your library card and deleted from your Amazon library.

If the book has already expired and you want to remove it from your Kindle Library, follow the steps listed above. When you click on the button under the Actions column, you will now see an option that says **Delete**. Click on this to permanently remove the title from your Amazon library.
