

Instructions for Using At-Home Covid-19 Test Kit

Questions? Call eMed Customer Support at (844) 943-0061

GETTING STARTED

- Library staff cannot answer questions about the test kit. Call eMed customer support.
- Watch a how-to video at ohio.emed.com.
- This is an at-home test.
- You need a hard surface with lots of space in front of you so that the test can lay flat.
- An eMed guide may ask you to adjust your camera during the test.

HOME TECHNOLOGY REQUIREMENTS

- Email address
- Internet connection
- A device with a webcam: smartphone, tablet, or computer
- Don't have these requirements? Visit an in-person testing site.

TAKING THE TEST

1. Create a NAVICA account. Each test-taker needs their own NAVICA ID.
 - Option 1: Download NAVICA app to a smartphone/tablet. Open app. Tap create account.
 - Option 2: Go to ohio.emed.com. Click start testing. Click create NAVICA account.

Need an account for someone age 17 or under?

- Login to app with guardian's NAVICA ID. Tap in upper right of screen.
 - Tap add a managed profile.
2. Go to ohio.emed.com. Click start testing.
 3. Click login with NAVICA. Enter your NAVICA account information.
 4. Answer a series of questions. Click continue.
 5. Tell your name and birthdate to the eMed guide.
 6. Follow all directions from the eMed guide to take the test.
 7. If the video call is interrupted, repeat steps 2-5. Tell the guide what happened.
 8. If the test cannot be completed, call eMed at (844) 943-0753.

RESULTS

Results are stored in the NAVICA app.

If you didn't download the app, call eMed at (844) 943-0061 to have results delivered.
