

## Instructions for Using At-Home Covid-19 Test Kit

### GETTING STARTED

- Library staff cannot answer questions about the test kit. Call eMed customer support.
- Watch a how-to video at [ohio.emed.com](http://ohio.emed.com).
- You need a hard surface with lots of space in front of you so that the test can lay flat.
- An eMed guide may ask you to adjust your camera during the test.

### HOME TECHNOLOGY REQUIREMENTS

- Email address & Internet connection
- A device with a webcam: smartphone, tablet, or computer
- Don't have these requirements? Visit an in-person testing site.

### TAKING THE TEST

1. Create a NAVICA account. Each test-taker needs their own NAVICA ID.
  - Option 1: Download NAVICA app to a smartphone/tablet. Open app. Tap create account.
  - Option 2: Go to [ohio.emed.com](http://ohio.emed.com). Click start testing. Click create NAVICA account.

Need an account for someone age 17 or under?

- Log in to app with guardian's NAVICA ID. Tap in upper right of screen.
  - Tap add a managed profile.
2. Go to [ohio.emed.com](http://ohio.emed.com). Click start testing.
  3. Click login with NAVICA. Enter your NAVICA account information.
  4. Answer a series of questions. Click continue.
  5. Tell your name and birthdate to the eMed guide.
  6. Follow all directions from the eMed guide to take the test.
  7. If the video call is interrupted, repeat steps 2-5. Tell the guide what happened.
  8. If the test cannot be completed, call eMed at (844) 943-0753.

### RESULTS

Results are stored in the NAVICA app.

### EXPIRATION DATES

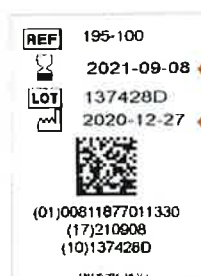

The U.S. Food and Drug Administration has authorized the extension of expiration dates for the BinaxNOW rapid antigen tests to be 12 months from the manufacture date.

To get more information about the extension of expiration dates, including individual expiration dates by test lot number, please visit:

<https://coronavirus.ohio.gov/static/binax-now/binaxnow-covid-19-ag-card-product-exp-update.pdf>

### TEST KIT EXPIRATION DATE

On the box you will see a label with several codes:

Original Expiration Date

Date Test Kit Was Made

These test kits have been approved by the Food and Drug Administration (FDA) to be used beyond their original expiration date. The kits are good for 12 months after the kit was made. In this example, the new expiration date is 12/27/2021 which is 12 months after the date this kit was made. You can read about the expiration date extension at [fda.gov/media/147409/download](http://fda.gov/media/147409/download)
